Art Unit: 3728

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, line 4, "said bottom surface" lacks antecedent basis for one bottom surface from "top and bottom surfaces". See also claims 8 and 14, line 4 of each.

In claim 3, line 1, "said plurality divider member slots" is ungrammatical and therefore indefinite. In line 2, "so that same" is indefinite which antecedent is meant by "same". See also claim 9, lines 1 and 2, and claim 14, lines 28 and 29 for the same indefiniteness.

In claim 4, line 1, "said plurality of divider plate slots" is indefinite, as "divider plate slots" has not been previously used. See also claims 10 and 15, line 1 of each.

In claim 5, line 3, "plurality of associated slots" lacks antecedent basis for being associated with anything. See also claims 1 and 16, line 3 of each.

In claim 7, line 2, "said top surface" lacks antecedent basis for one such surface from claim 1, lines 2-3. See also claims 13 and 18, line 2 of each.

3. Claims 1-18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 3728

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Shown are compartmented containers formed by divider structure.
